Tools needed to assemble:

- 1 – Pliers
- 2- 7/16" Wrenches
- 2- 1/2" Wrenches

**IMPORTANT NOTES:**

1. Grease the axle on both sides of the cart base before putting the 10" Pneumatic wheels on. Item 13 on the schematic.
2. While installing both of the front casters be sure the grease zerk faces the front of the cart. After you install both casters, be sure to grease them with a standard grease gun. Item 19 on the schematic.
